

# Your ShareLife Thermometer Banner

The ShareLife thermometer banner can be reused year after year. Simply follow the instructions below.

## Instructions

**DO NOT** write on the thermometer banner itself. Only write on the removeable stickers. Your supply of stickers will last a full parish campaign (March to end of July). You can request more stickers with your order of 2021 campaign materials.

### Step 1.

On one of the white stickers, write your parish goal. Apply the sticker to the green box.

### Step 2.

Write your current amount raised on another white sticker. Place it on the thermometer approximately relative to your parish goal. You have enough stickers to remove and replace this sticker every two weeks.

### Step 3.

Use the red stickers to indicate your current amount raised, approximately relative to your parish goal.
